

Lions District 24-L Website Report

April 15, 2026

Submitted by Sally Cooney Anderson

During this Lion Year, PCC Glen Logan and I launched a revised district website with a primary goal of being a resource for information.

Since that time, the site has been updated several times each week. Requests for additions and corrections are almost always made within 48 hours.

Although there was some resistance at first, district Lions are slowly getting used to not receiving a monthly *Paw Prints*, and they are going to the website for the information previously included in that publication.

Once or twice per month, an email is sent to more than 2,000 Lions with links that call attention to additions to the site.

Plans for Lion Year 2026-27 include the following major actions:

- Revise some of the pages so they are compatible with SmartPhones. At present, the order of information on some pages displays incorrectly.
- Add a restricted-view membership list.
- Update, explain how to use, and promote the Blog.
